Here it is! The 1960-61 "Panther."
We, the Annual Staff, have had it for al-
most a year and now it is yours.

In this year's Panther, we have at-
tempted not only to present to you a record
of this school year, but also to capture the
spirit of Fuller High School for memories
in years to come.

With this book we extend our deepest
appreciation to every one who has helped
to make this yearbook one that will grow
in value in the years to come.

The Editors,

Awenda Squires
Marinella Blivins

Dedication

It is with deep affection and admiration that we, the Senior Class of 1961, dedicate this yearbook to you, Mrs. Edith Miller, the sponsor of our annual. Because of your untiring efforts, this has been the best year ever.

Because you were there when we needed you most, we give to you the most precious gift we have to offer . . . the dedication of a year of work, a year of memories.

Principals' Message

This year is proving to be one of the best years in the history of Fuller School.

It seems that the majority of the student body is becoming more conscious of the need for the basic training offered in our school.

A greater number of students are seeking information concerning the type of work they wish to follow. Interest is shown in more specialized training which is offered in post graduate institutions.

The knowledge that there is ever increasing competition in all phases of the work which an individual may choose is, I believe, having a wholesome bearing in this awakening.

In the past several years we have had in our training institutions subtle suggestions that our youth be trained to adapt themselves to their environment. This fits in perfectly with the present economic and social trend to let others do your thinking and planning for you. You just toil and we will do all the planning for you.

To all students today the challenge is: prepare yourself to be master of the situation, keep abreast of current happenings and their implications, think and then act accordingly.

Your faculty and I wish for each of you a successful and above all a conscience approving future.

Farewell

As we pass slowly out of these doors that have seen so many come and go, all too quickly we hear the doors of the years past, quietly shutting behind us; and we go forth eagerly to open the doors to the future and whatever it may bring.

For when one door is shut - another opens.
